PROFESSIONAL SUMMARY

Business and product operations professional with experience across marketplace and merchant operations, using SQL and analytics to improve partner performance, build scalable workflows, and translate operational insights into cross-functional action.

EDUCATION

Master of Technology Management <i>University of California, Santa Barbara</i>	Jun 2026
MBA, Marketing & Operations <i>Institute of Management Technology, Ghaziabad</i>	Apr 2023
Bachelor of Computer Science <i>Fergusson College, Pune</i>	Apr 2019

WORK EXPERIENCE

Supply Bistro <i>Product Operations Associate</i> · Supply chain & logistics	Ithaca, NY <i>Sep 2026 – Present</i>
- Evaluating 3PL partners on capabilities, pricing, and technical needs to shape logistics integrations for a B2B platform. - Translating partner and client needs into a product roadmap, defining wireframes and API requirements for engineering. - Testing an AI-assisted product bulk-upload workflow to identify usability and data-normalization gaps in catalog onboarding.	
Deckers Brands <i>Product & Market Analyst</i> · Global footwear brand, HOKA	Santa Barbara, CA <i>Dec 2025 – Jun 2026</i>
- Led strategy across 5 sports, synthesizing 60+ interviews and market data to identify 2 high-potential market opportunities. - Built a phased execution roadmap evaluating customer demand, competition, and operational feasibility for new market entry.	
Swiggy <i>Strategic Account Manager</i> · Food delivery marketplace	Hyderabad, India <i>Feb 2024 – Sep 2024</i>
- Owned \$2M/month marketplace category, managing restaurant KPIs and business reviews that drove 30% revenue growth. - Used SQL to diagnose partner and operational performance, translating insights into actions that increased orders by 10%. - Analyzed user behavior, funnel performance, and customer cohorts to identify retention gaps, increasing repeat orders by 10%. - Led cross-functional operations across restaurant supply, partners, and internal teams to sustain 3× growth during peak demand.	
Becton, Dickinson and Company <i>Business Operations</i> · Healthcare device distribution	Bangalore, India <i>Jun 2023 – Feb 2024</i>
- Led Karnataka operations across 20+ enterprise institutions, driving product adoption programs that grew revenue by 28%. - Built an Excel forecasting model to assess SKU-level demand and optimize reorder cycles, improving inventory turnover by 30%.	
Amazon <i>Management Intern</i> · Marketplace operations	Bangalore, India <i>Apr 2022 – Jun 2022</i>
- Analyzed seller feedback and appeal data to identify recurring workflow gaps, improving intake categorization accuracy by 10%. - Automated seller-appeal review workflows, reducing resolution TAT 25% while eliminating repetitive operational overhead. - Translated a compliance gap into process improvements across Operations, Product, and Support, cutting escalations 15%.	
Keywordio <i>Software Engineer</i> · Digital marketing	Pune, India <i>Jul 2019 – Jun 2021</i>
- Built real-time ad performance dashboards in Python, translating campaign data into actionable metrics to boost ROAS 20%. - Integrated Google Ads APIs and optimized SQL queries in Python, improving data-pipeline responsiveness by 70% in ads. - Developed PPC bidding automation for 50+ ad accounts, reducing manual campaign operations and improving scalability.	

ACTIVITIES & LEADERSHIP

- Coordinator, Techstars Start-up Weekend 2022:** Organized a 3 days nationwide event with 48 teams, fostering innovation.
- Marketing Head, Entrepreneurship Cell 2021-23:** Directed a 28-member team across marketing for 5 annual events.
